

Jhon Urueña

SENIOR BACKEND DEVELOPER · DEVSECOPS ENGINEER

Bogotá, Colombia

☎ (+57) 3134525787 | ✉ steven.151@hotmail.com | 🏠 stevenuch.github.io/JECODE/ | 📱 stevenuch

Professional Summary

Systems Engineer and Senior Fullstack Developer specialized in Python and .NET ecosystems, with a strong background in Cybersecurity (SOC). Proven experience in scalable architecture design, latency mitigation, high-concurrency management, and technical leadership in critical migration processes. Passionate about process automation, integrating secure practices into the software development lifecycle, and adopting Generative Artificial Intelligence for workflow optimization.

Work Experience

EY Outsourcing SAS

Bogotá, Colombia

SENIOR DEVELOPER

Nov. 2022 - Present

- Led the architectural migration of a legacy desktop application to a modern web solution based on **.NET**, designing and implementing asynchronous processes for efficient background task processing.
- Designed and optimized a high-concurrency transactional portal in **Python (Flask)** focused on vacation management, approval workflows, and automatic document generation.
- Implemented **Redis** as a distributed caching layer in the management portal, achieving a drastic reduction in query latency and mitigating server load during transactional peaks.
- Collaborated in solving complex technical challenges, ensuring the development lifecycle through clean code and system performance and scalability optimization.

AppGate Inc.

Bogotá, Colombia

L1 ANALYST (SOC)

Oct. 2020 - Nov. 2022

- Designed and optimized automated scripts in **Python** and **JavaScript** for mass data extraction and analysis, accelerating fast and accurate threat detection.
- Conducted vulnerability testing in network environments focused on early identification and mitigation of Web Shell compromises.
- Executed security audits and attack vector analysis using specialized tools under **Kali Linux** and internal Security Operations Center (SOC) platforms.
- Managed real-time monitoring, threat analysis, and critical incident response following strictly documented procedures.

Technical Skills

Back-end	Python (FastAPI, Django, Flask), .NET, Node.js, Express, Koa, REST APIs, Redis, Procesos Asíncronos
Front-end	React, JavaScript (JS), HTML5, CSS3, Chart.js
Programación	Python, Java, C++, C#, JavaScript, Go
DevOps & Tools	Docker, Kubernetes, Git, GitHub, Azure DevOps, Nginx, Linux (Kali Linux)
Idiomas	Spanish (Native), English (B1)

Education

CUN - Corporación Unificada Nacional de Educación Superior

Bogotá, Colombia

SYSTEMS ENGINEERING

Jan. 2022 - Dec. 2023

- Focus on the design, development, and implementation of advanced software systems.
- Deepening in management and optimization of relational and non-relational databases.
- Implementation of cybersecurity measures, data protection, and use of agile methodologies.

SENA - Servicio Nacional de Aprendizaje

Bogotá, Colombia

ASSOCIATE DEGREE IN SYSTEMS ANALYSIS AND DEVELOPMENT

Jan. 2019 - Nov. 2021

- Requirements analysis and design of technological solutions adapted to business needs.
- Development of modular applications using multiple programming languages and frameworks.

CUN - Corporación Unificada Nacional de Educación Superior

Bogotá, Colombia

PROFESSIONAL CERTIFICATE IN OBJECT-ORIENTED DEVELOPMENT

Jun. 2022 - Nov. 2022

- Advanced study of software design patterns (Singleton, Factory, Observer, Decorator) and UML modeling.
- Implementation of unit testing techniques, refactoring, and continuous integration strategies.

Polisura - Politécnico de Suramérica

Bogotá, Colombia

PROFESSIONAL CERTIFICATE IN BIG DATA AND BUSINESS INTELLIGENCE

Jun. 2021 - Nov. 2021

- Massive data processing using Hadoop and Spark, and structuring effective visualizations for business decision-making.

Courses & Certifications

2025	LangChain: Build GenAI Apps with LangChain and Pinecone , Udemy	Online
2025	API Testing with Python 3 and Pytest , Udemy	Online
2024	Design Patterns in Python , Udemy	Online
2024	Generative AI: Practical Guide, Use Cases and Ethics , Udemy	Online
2019-2020	Continuous Learning Ecosystem (Git, Django, Big Data, Algorithms) , Platzi	Online
